Nov 29, 2021 · The Net Income Approach was presented by Durand. The theory suggests increasing the value of the firm by decreasing the overall cost of capital which is measured in terms of the Weighted Average Cost of Capital. This can be done by having a higher proportion of debt, which is a cheaper source of finance compared to equity finance.

Corporate finance for the pre-industrial world began to emerge in the Italian city-states and the low countries of Europe from the 15th century. The Dutch East India Company (also known by the abbreviation “VOC” in Dutch) was the first publicly listed company ever to pay regular dividends. The VOC was also the first recorded joint-stock company to get a fixed capital stock.
